DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 07 October 2009 has been entered.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 07 October 2009 was filed after the mailing date of the "Notice of Allowability/Examiner's Amendment on 11 August 2009. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Darrell D. Kinder Jr. (Registration # 57,460) on 30 July 2009.

The application has been amended as follows:

In The Claims:

At Claim 8, line 18 and 19; delete the phrase "the inspection image data is abnormal"; replace with --"the inspection image is an abnormal inspection image"--

At Claim 10, line 2; after "image" and before "due"; delete "being" and replace with -----
--"occurs"--

At Claim 13, line 1; after "pinholes" and before "a"; delete ""configure"; replace with
--"implement"--

At Claim 17, line 2; after "image" and before "due"; delete "being" and replace with -----
--"occurs"--

4. This Notice of Allowability/Examiner's Amendment is responsive to applicant's remarks received on 04 May 2009. By the amendment submitted, claims 1, 8 and 15 are amended. Claims 1-20 remain pending in the application. Claims 1-20 are now allowable over the prior art made of record.

Regarding Claim Rejections under 35 U.S.C. 101

Summary: At pages 10 and 11, the applicant discusses how independent Claim 15 transforms a particular article into a different state or thing and satisfies at least the transformation prong of the machine-or-transformation test and further, the method of independent Claim 15 is tied to an exposure tool and therefore also satisfies the machine prong of the machine-or-transformation test.

Examiner's Response: Specifically, Claim 15, Applicant's claim limitations recites "a plurality of imaging components on an inspection photomask...deviating from an optical conjugate plane of a surface of an inspection resist film." At least these claimed limitations are performed by a computer or computing device, in that only a computer or computing device can execute the computational complexity of "projecting exposure beams output from a plurality of effective light

sources onto an inspection resist film via the imaging components on different optical conjugate planes" and realize the intended purpose of the invention. A reasonable interpretation of the specification indicated that these claimed limitations in addition to a few other recited steps, require a programmed computer or computing device to accomplish the intended purpose of the invention, and there is no disclosed indication of manual and/or mental activity involved. Therefore, independent claim 15 is tied to a machine and thus a statutory process. Independent claim 15 is further in compliance with the transformation analysis such that independent claim 15 has a physical transformation of transforming a particular article into a different state or thing. The rejections of Claims 15-20 under 35 U.S.C. 101 are withdrawn.

Regarding Claim Rejections under 35 U.S.C. 103

At pages 12-23, applicant respectfully traverses the rejections of claims 1-20 under 35 U.S.C. 103(a).

Examiner's Response: Applicant's arguments, with respect to 35 U.S.C. 103 have been fully considered and are persuasive. The rejection of claims 1-20 has been withdrawn. Claims 1-20 are allowable in view of the currently amended claim status.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
